Session 02: Locations & Buildings

Narrative Design Boot Camp

Stefan Petrovici – Student Worksheet

BUILDING NAME: Engineering Room
BUILDING DESCRIPTION: Weapon / Tool room (INTERIOR)
LOCATION: Inside any standard ship

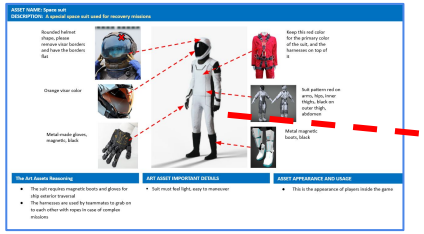

Make a space weapon stands but not rifles, weapons in space must be compact and small

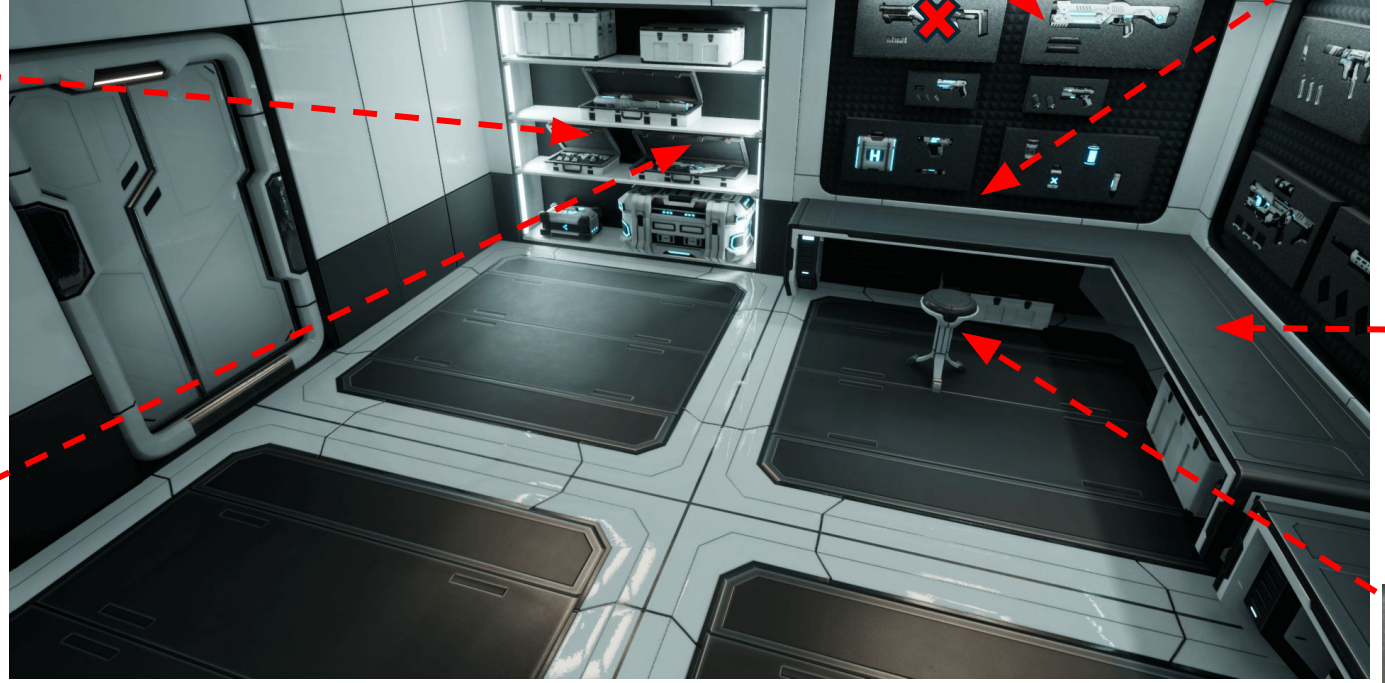

Tablet stand with sci-fi, glass transparent tablets

Instead of this cabinet, 2 space suits are displayed here (see next slide)

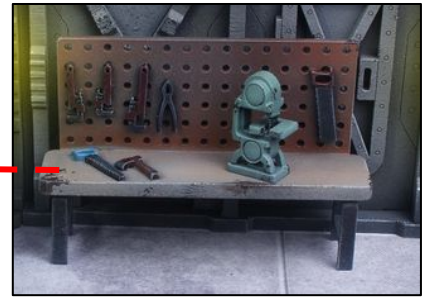

Table extends on this wall as a tool bench table

One of the suits (right one) is equipped with grappling gear, the other is not. Also other gears you have in this picture are visible on this wall separately

4-legged magnetized stool

NPCs (enemies, neutral, or allies)

- Lawrence - Ship Engineer (Ally)

LEVEL ART IMPORTANT DETAILS

- We have suits + harness cabinets, a tablet stand, weapon racks above, and to the right the tool bench
- The floor should be changed to a metallic gray material

GAMEPLAY USAGE

- Weapon upgrade
- If players don't start with some tools, they can find some of them in this room, depending if they were spawned or not

ASSET NAME: Space suit
DESCRIPTION: A special space suit used for recovery missions

Rounded helmet shape, please remove visor borders and have the borders flat

Orange visor color

Metal-made gloves, magnetic, black

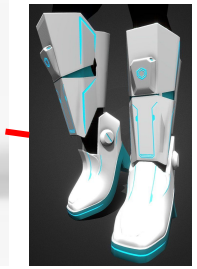

Keep this red color for the primary color of the suit, and the harnesses on top of it

Suit pattern red on arms, hips, inner thighs, black on outer thigh, abdomen

Metal magnetic boots, black

The Art Assets Reasoning

- The suit requires magnetic boots and gloves for ship exterior traversal
- The harnesses are used by teammates to grab on to each other with ropes in case of complex missions

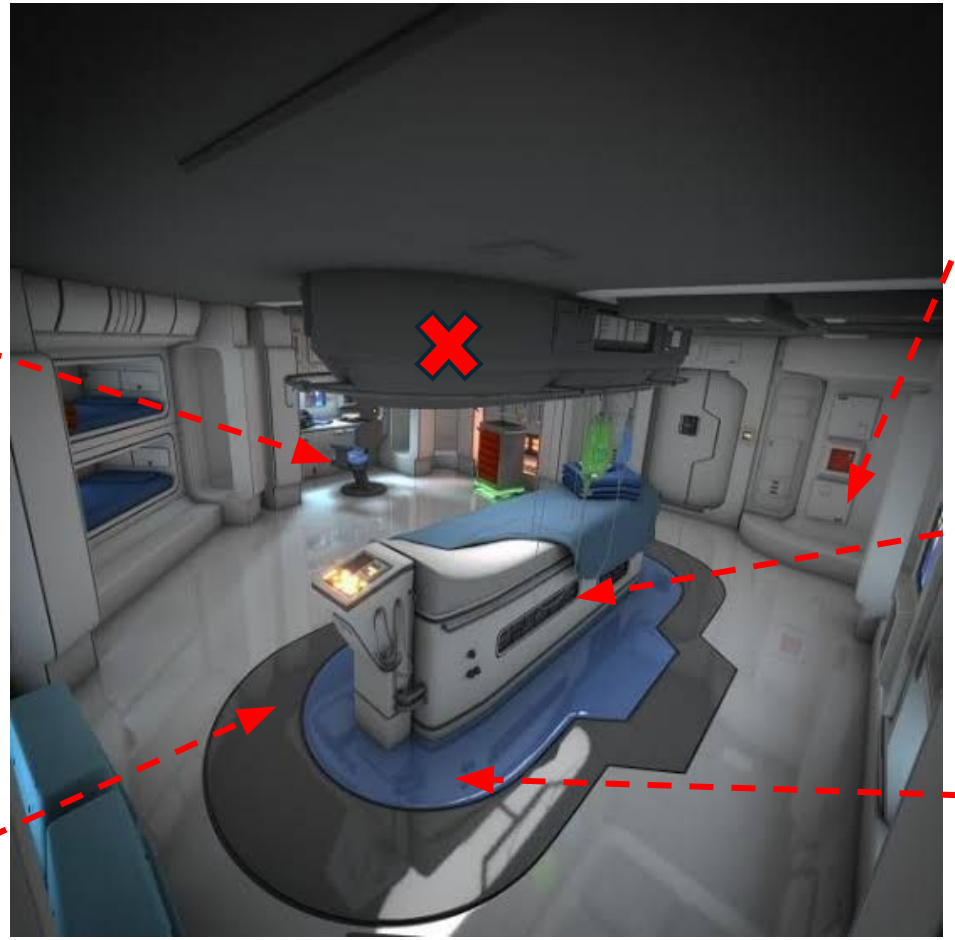

ART ASSET IMPORTANT DETAILS

- Suit must feel light, easy to maneuver
- The harness is inspired from rock climbing harnesses, players will often need to secure a rope to the outside of the ship in case explosions or asteroids hit while they are doing something

ASSET APPEARANCE AND USAGE

- This is the appearance of players inside the game

BUILDING NAME: Infirmary Room
BUILDING DESCRIPTION: Healing Room (INTERIOR)
LOCATION: Inside any standard ship

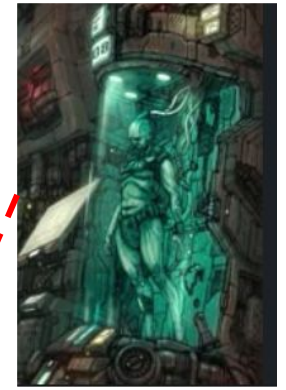

Put a normal desk here with paperwork and a computer

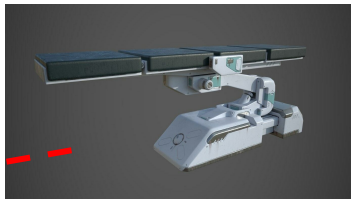

Medical tray, 3 levels, all of the levels have tupperware containers with the utensils, containers are magnetized to the tray

Green vat can be used to respawn players

One-legged solid surgery table

We need an IV stand in the room

NPCs (enemies, neutral, or allies)

- Ratlo - Ship Medic (Ally)

LEVEL ART IMPORTANT DETAILS

- Make sure all cabinets, most tiny tools, surfaces have a protection like a glass cover or glass door to prevent items scattering all over

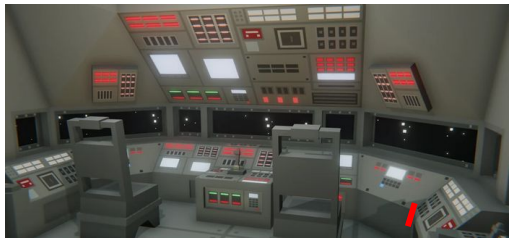

GAMEPLAY USAGE

- Player can come to this location to look for healing items and if one of the players die, they can clone that player here and he can play again.

BUILDING NAME: Command Room
BUILDING DESCRIPTION: Information room (INTERIOR)
LOCATION: Inside any standard ship

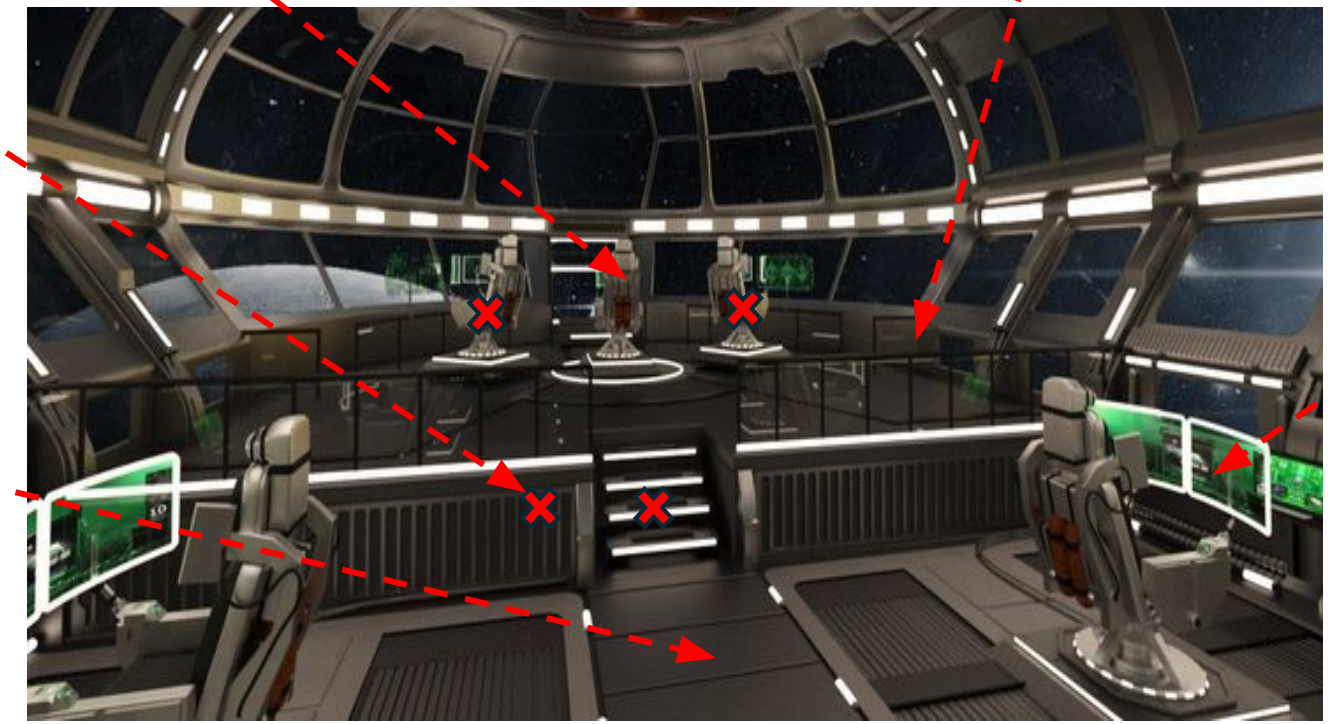

Only 1 seat here, captain's seat and a hologram screen in front of the screen, hovering

Add button commands all over the circumference of the deck, but the biggest screens remain in front of the seats

Remove the elevated level, keep it the same level

Place a circular hologram map here, no seats around it, one leg

Make screens embedded in the deck, not gaming monitors. Don't put screens over the window, move the seats lower instead, and the screens under the windows

NPCs (enemies, neutral, or allies)

- Azuna - Ship captain (Ally)

LEVEL ART IMPORTANT DETAILS

- Only one entry point, the door at the bottom

GAMEPLAY USAGE

- This location can be used to check the state of the other ship systems
- The ship AI system is accessible from this room

BUILDING NAME: Standard Ship
BUILDING DESCRIPTION: Standard Ship EXTERIOR
LOCATION: N/A (Vehicle)

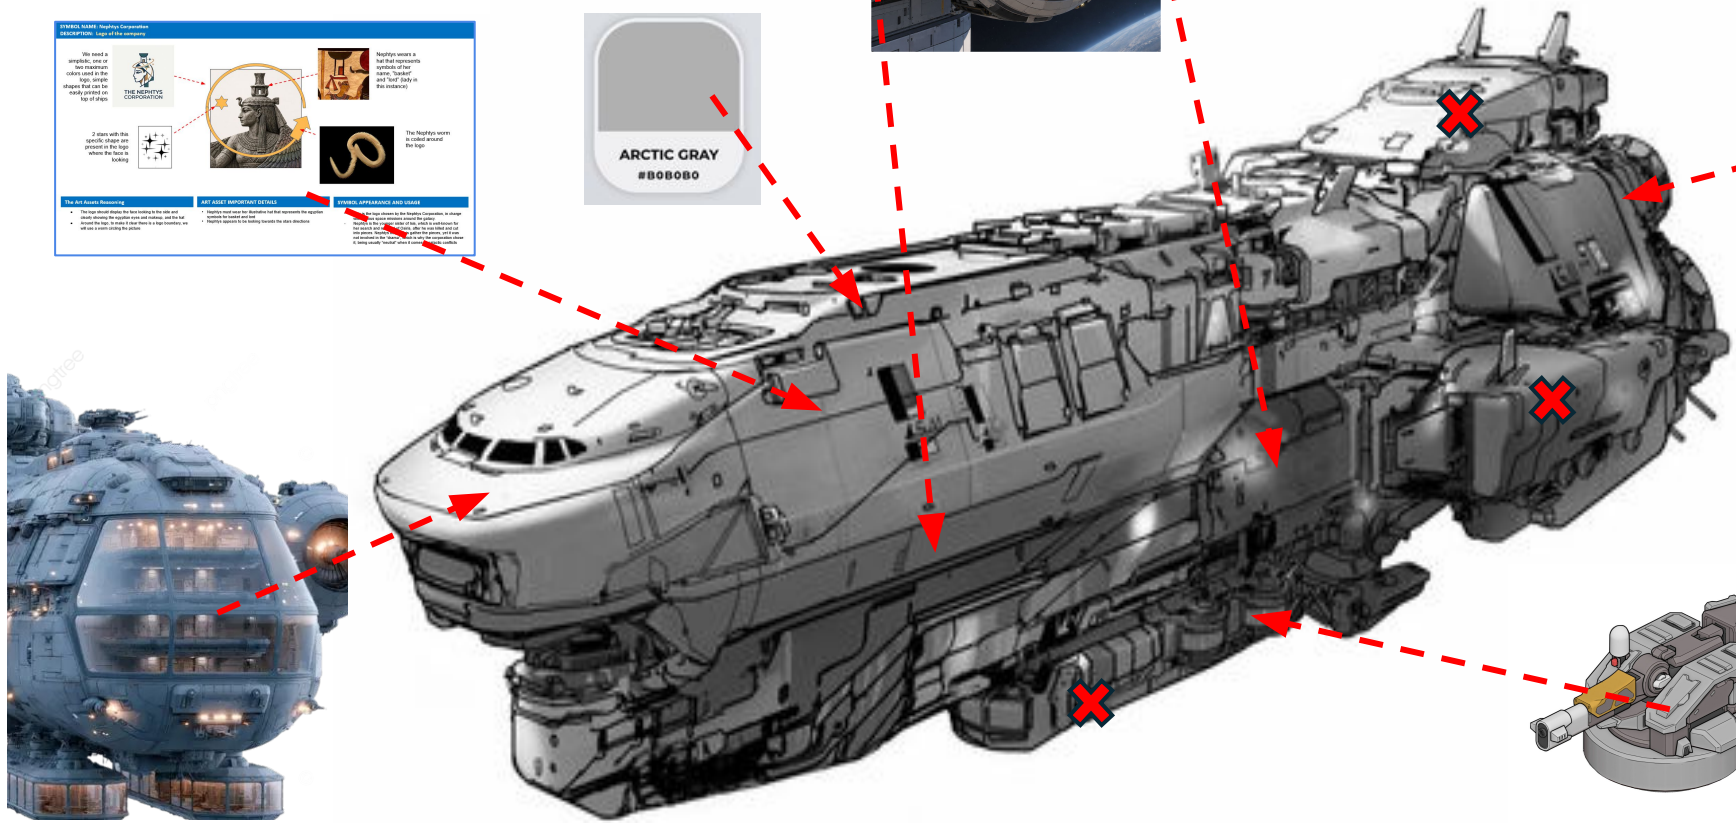

Change ship color to arctic gray

2 airlocks, one in the front one in the back on each side

Nephtys Corporation logo (next page)

Simplified thruster design, without the spoiler. 10 thrusters, 3,4,3 displayed

Modify front with big open windows into the ship command room

Laser turret on the underside of the ship, used to defend against asteroids

NPCs (enemies, neutral, or allies)

- Azuna - Ship captain (Ally)

LEVEL ART IMPORTANT DETAILS

- Look at the interior to match the sizes also
- Arctic gray: #BOBOBO

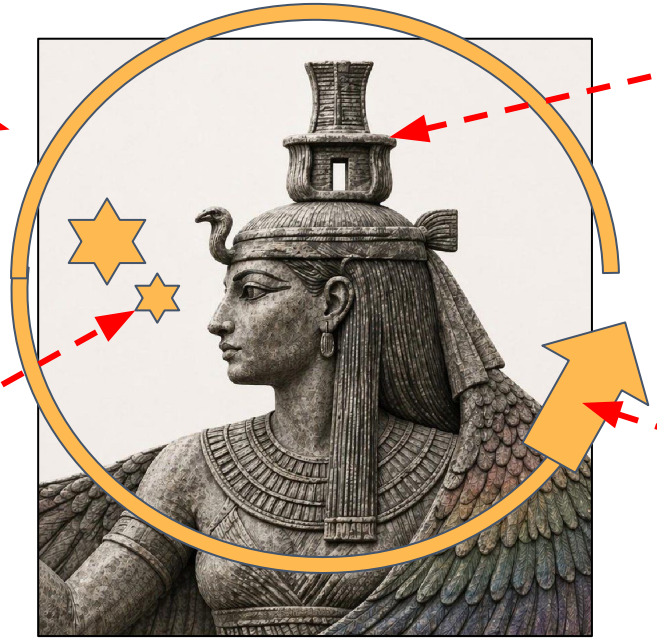

GAMEPLAY USAGE

- The standard ship players will board and try to salvage from

SYMBOL NAME: Nephtys Corporation
DESCRIPTION: Logo of the company

We need a simplistic, one or two maximum colors used in the logo, simple shapes that can be easily printed on top of ships

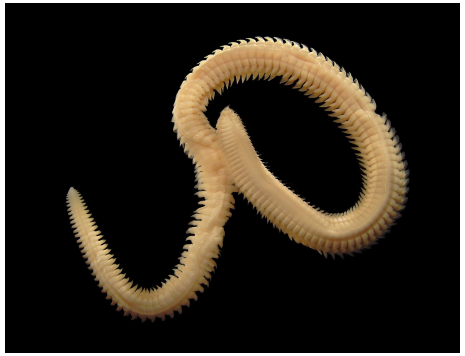

Nephtys wears a hat that represents symbols of her name, “basket” and “lord” (lady in this instance)

2 stars with this specific shape are present in the logo where the face is looking

The Nephtys worm is coiled around the logo

The Art Assets Reasoning

- The logo should display the face looking to the side and clearly showing the egyptian eyes and makeup, and the hat
- Around the logo, to make it clear there is a logo boundary, we will use a worm circling the picture

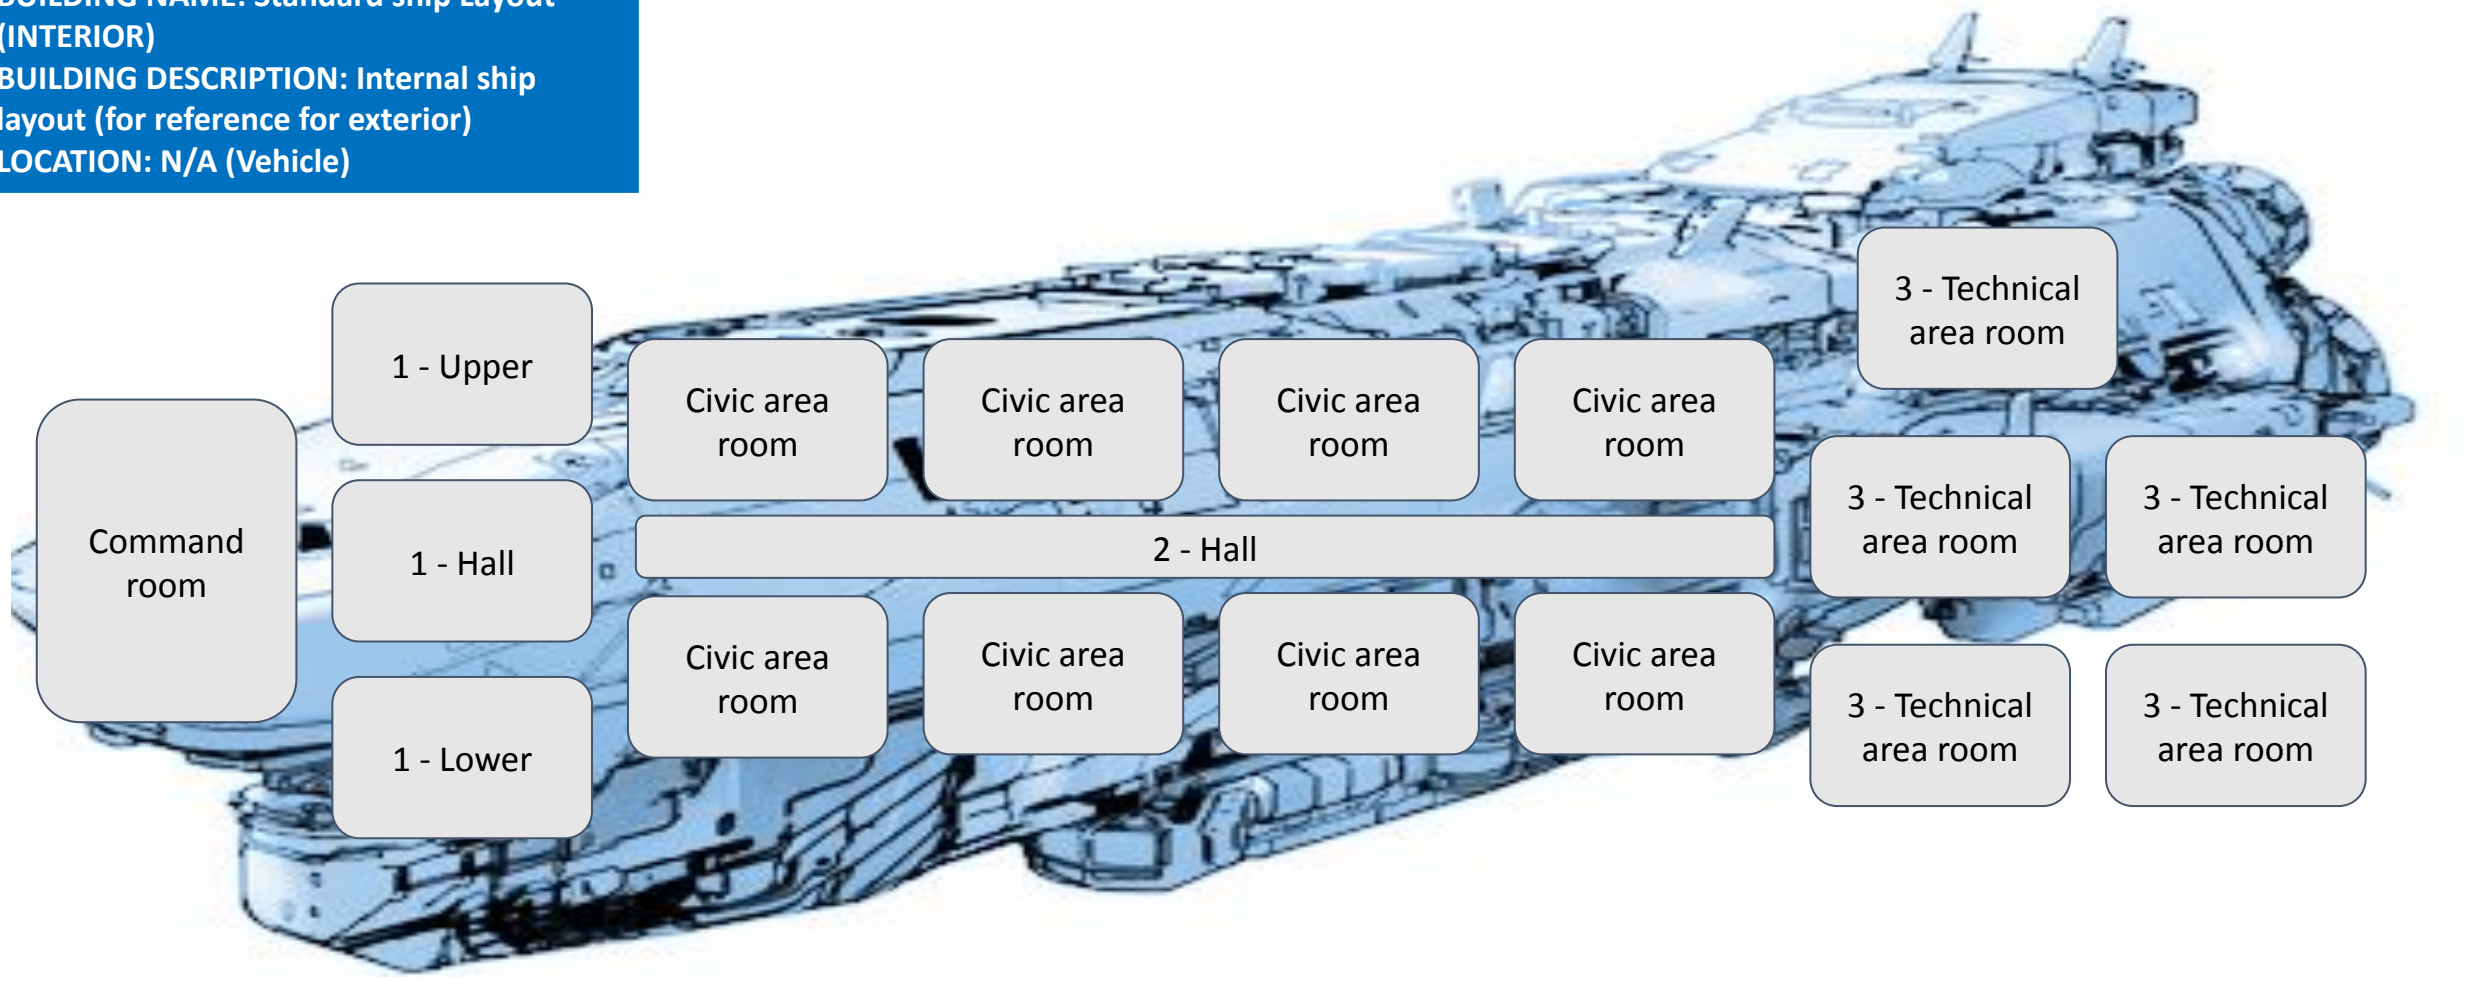

ART ASSET IMPORTANT DETAILS

- Nephtys must wear her illustrative hat that represents the egyptian symbols for basket and lord
- Nephtys appears to be looking towards the stars directions

SYMBOL APPEARANCE AND USAGE

This is the logo chosen by the Nephtys Corporation, in charge with various space missions around the galaxy.

BUILDING NAME: Standard ship Layout (INTERIOR)
BUILDING DESCRIPTION: Internal ship layout (for reference for exterior)
LOCATION: N/A (Vehicle)

NPCs (enemies, neutral, or allies)

- N/A

LEVEL ART IMPORTANT DETAILS

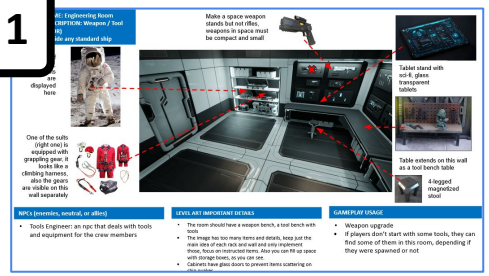

- The ship has 4 areas:
- 1) command room
- 2) hall area, 1 room on top, hallway, 2 rooms down
- 3) civic area - 4 rooms on 2 levels
- 4) technical area - 3 levels: 1,2,2 rooms

GAMEPLAY USAGE

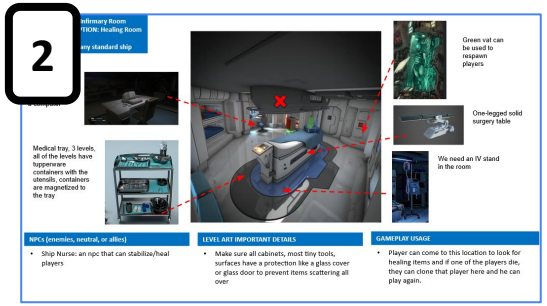

- Ship layout, rooms presented before (Armory, Infirmary) are randomly placed in one of these location spaces
- Other rooms (living quarters, engine room, cantine, etc.) will be added to complete the entire lineup of rooms

LOCATION NAME: Standard ship Interior
LOCATION DESCRIPTION: A composit of all the rooms

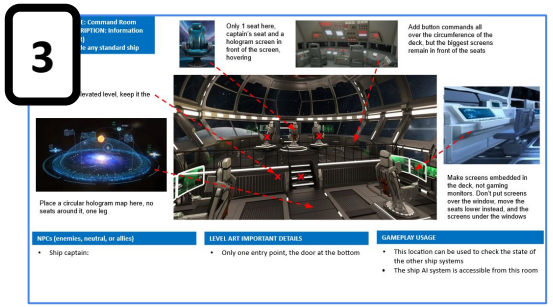

1

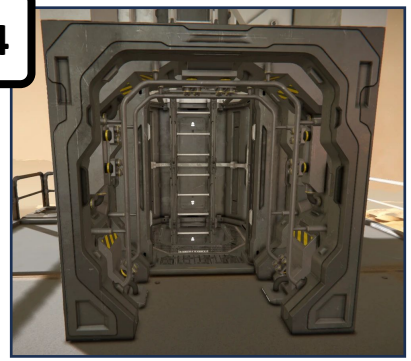

2

3

4

KEY SITES IN MISSION LOCATION

1. Command Room
2. Infirmary Room
3. Engineering Room
4. Ladder Shaft halls (used to travel between the rooms)

LEVEL ART IMPORTANT DETAILS

- Advanced technology sci-fi, clean, simple aspect
- Rooms must have same height and 2)3) must have the same size, while 1) is double the width size

LOCATION THEMATIC & APPEARANCE

- The ship is a special mission vessel, harboring some sort of secret within it about the mission

LOCATION FUNCTION IN THE WORLD

- Players need to uncover what went wrong in the mission, and extract what's left valuable

BACKSTORY (in World Lore)

The game loop involves repeatedly boarding ships and uncovering what went wrong in their original missions. Your task is to extract and recover. Some of the crises are because of an alien snuck on board or a rogue AI or crew infighting.

NPCs (enemies, neutral, allies)

- Lawrence - Ship Engineer (Ally)
- Ratlo - Ship Medic (Ally)
- Azuna - Ship captain (Ally)

GAMEPLAY USAGE

- The gameplay is mostly scavenging and researching ships such as this one here, so it is the main area of the game

BUILDING NAME: Player Ship
BUILDING DESCRIPTION: Starting area (INTERIOR)
LOCATION: Player Ship

Stairs lead up to the control room, where there is only one seat for the pilot, it is not a second room, the stairs lead up to the console

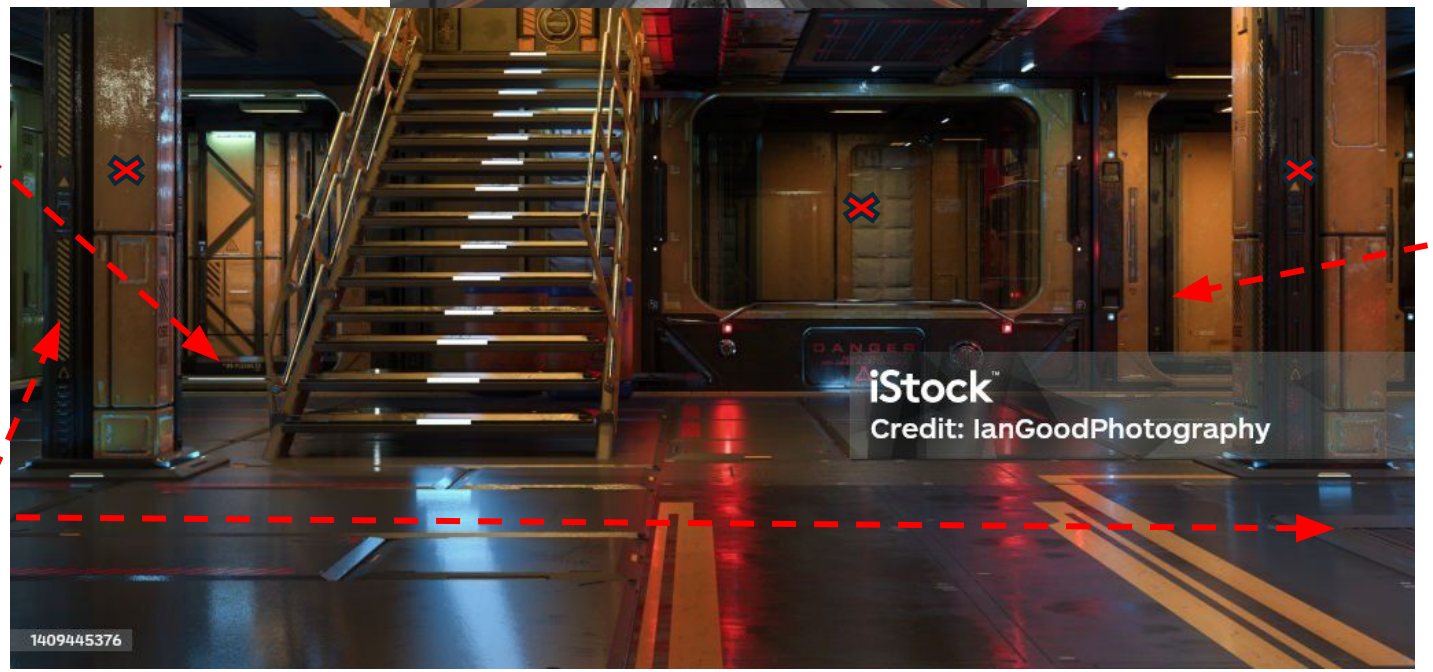

Spaceship driving wheel

Cargo boxes are glued to the floor, used to deposit goods

Green vat can be used to respawn players, as they are docked to the explored ship

Place airlocks on the sides

NPCs (enemies, neutral, or allies)

- Player Character

LEVEL ART IMPORTANT DETAILS

- There are 2 rooms, one main room and one control room you climb into via ladder

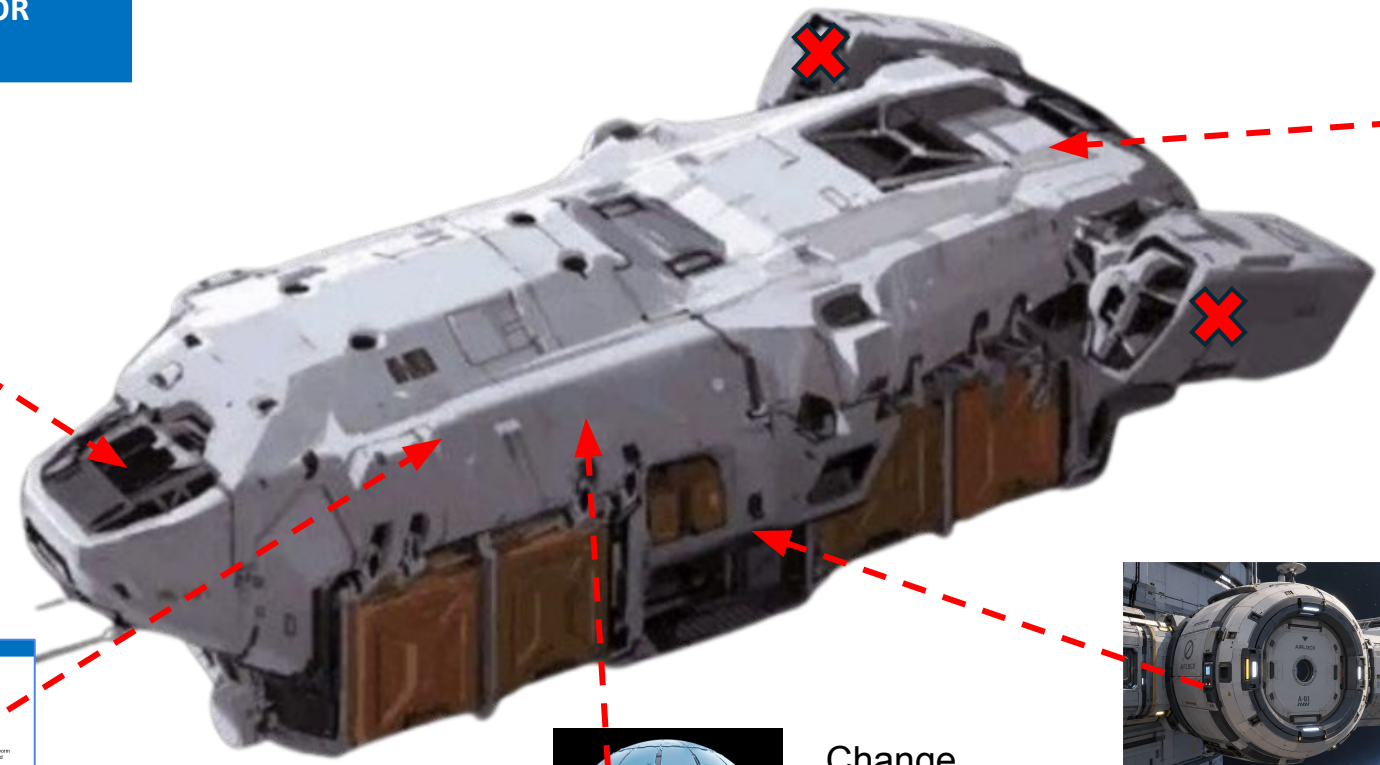

GAMEPLAY USAGE

- Player's starting area and end area, they need to retrieve the items or information from the ship, return, and start the engine to leave.

BUILDING NAME: Player Ship
BUILDING DESCRIPTION: Player Ship EXTERIOR
LOCATION: N/A (Vehicle)

Big open windows into the ship command room

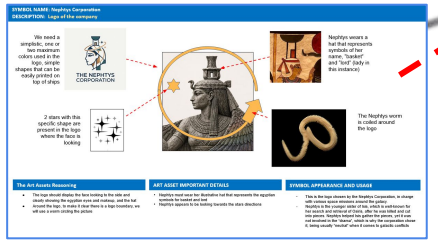

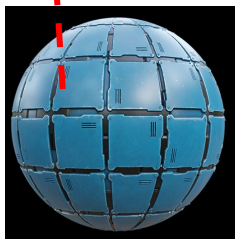

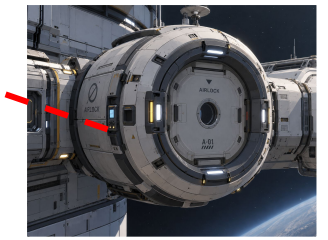

Add 4 thrusters in the back

Nephtys Corporation logo

Change material to blue metallic

Place airlocks on the sides

NPCs (enemies, neutral, or allies)

- Player Character

LEVEL ART IMPORTANT DETAILS

- Airlocks are present on both sides of the ship, but only one is functional and leads to the docked ship

GAMEPLAY USAGE

- The ship players start from and return to
