Narrative Designer | Technical Narrative Designer | GameDev

What I like the most about my job is that I can be creative in what I do, and the people that use my systems and concepts so they can build stories easier, with less typing to do. I try to constantly learn things that can help me grow, both as a person and as a story creator.

Experience

DECEMBER 2025 - PRESENT

Ubisoft, București – *AI Engineer*

As an AI Engineer (R&D) in Ubisoft Online Services building GenAI prototypes and production I:

- Turned ideas into working GenAI/LLM prototypes, MVPs, and reusable building blocks (RAG, agents, function calling, prompts, safety guardrails)
- Worked side-by-side with product/domain teams, data scientists, engineers, and cloud specialists to integrate solutions smoothly
- Sourced, cleaned, and structured datasets used for training, fine-tuning, and benchmarking
- Set up and ran automated quality checks for LLM apps (LLM-as-judge methods, scoring metrics, traces) and improve based on findings
- Reviewed results and translate them into clear recommendations and next steps for owners
- Industrialized workflows with CI/CD for RAG pipelines, evaluation runs, and deployments
- Wrote internal docs, playbooks, and technical guidelines to scale team knowledge
- Helped ensure new AI capabilities are used responsibly by identifying risks and proposing mitigations

OCTOBER 2023 - DECEMBER 2025 (2 years 2months)

Ubisoft, București – *Gameplay Programmer*

- Delivered Assassin's Creed Shadows
- C++ programming and C# for build scripts or editor scripts
- Implemented gameplay features related to Character, Camera and Controls
- Added functionalities for static world assets validation
- Coordinated with an extensive team of professionals in a highly dynamic development environment

MARCH 2019 - SEPTEMBER 2023 (4 years 8 months)

Bitdefender, Iași – *Software Engineer*

- Worked on the core antivirus detection engine
- C++ programming - also used Python, Javascript, Typescript
- Helped build an internal library of standard functions

- Contributed to the development & design of a custom proprietary programming language
 - Created two VSCode extensions for two internal programming languages
- Developed a core engine to integrate external programming languages and transpile them to the company environment
- Constructed various web interfaces for internal projects, from static analyzers to AI train data collection for fine-tuning

Education

JUNE 2026 - AUGUST 2026

Fiction writing course – *with Marian Coman*

As a narrative designer I want to hone my skills as a writer and I enrolled to better understand fiction and the best way to write it.

MARCH 2026 - MAY 2026

Narrative Designer mentorship program – *with Ranko Trifkovic*

Checkout my full **portfolio** at:  [Stefan_Petrovici_Narrative_Portfolio_2026.pdf](#)

I really enjoy working with stories and games, and I wish to make a career out of it, so I enrolled in this program to learn about blending narrative and gameplay.

OCTOBER 2021 - JUNE 2023

Faculty Of Computer Science, Alexandru I. Cuza University, Iași – Master Degree

License grade: 10.0 Years mean (ECTS): 9.87

I followed my curiosity regarding the various fields of computer science, and learned many new technologies, from Blockchain technologies up to Quantum Computing and more.

OCTOBER 2021 - PRESENT

Faculty Of Psychology and Education Sciences, Alexandru I. Cuza University, Iași – Bachelor Degree

License grade: 9.25 Years mean (ECTS): 8.99

I learned many interesting aspects of the human mind and how we can understand ourselves and each other better.

OCTOBER 2018 - JULY 2021

Faculty Of Computer Science, Alexandru I. Cuza University, Iași – Bachelor Degree

License grade: 10.0 Years mean (ECTS): 9.02

The 3 year period of pursuing my Bachelor's Degree in Computer Science has been rewarding but demanding, focusing on learning each major thoroughly, whilst also working as a full-time Software Engineer.

Personal projects

Some of the projects I work on in my spare time:

FEBRUARY 2026 - PRESENT

Chess Worlds - Narrative Designer & Developer

Wrote the world and its story: a lone human king, the last survivor after his kingdom falls in a single night, travels across the realms gathering allies to stand against the demons and their blight.

Designed five playable factions (Humans, Elves, Dwarves, Aquatics, Constructs) so that each faction's philosophy becomes its mechanic: foresight, endurance, board control, programmable logic.

Built the tactics-chess hybrid in Godot and published a playable demo on itch.io.

MARCH 2026 (1 month)

Streamer UNTIL - Narrative Designer & Tools Programmer

On a four-person game jam team, owned the narrative system end to end: the writing, the authoring tool, and the simulation beneath it.

Wrote 289 chat barks for a livestream horror where a simulated audience is the antagonist, each line priced against a viewership meter that decides how hard the monster hunts the player.

Built a node-based chat-graph editor in Unity so non-programmer teammates could author and rewire dialogue without touching code.

2018 (about 6 months)

The Untitled Story: the video game - Writer & Developer

Pieced together an original narrative from another artist's concept drawings (Kevin Do) and built it into a fan game on my own.

Wrote all of the dialogue and the scenes. Combined role-playing and fighting-game mechanics in RPG Maker.

Godot contributor - I contributed to a command-line functionality in the main engine editor

And many other projects, games, which you can find either on Github or Itch.

Soft Skills

- Communicative
- Creative
- Team player
- Problem solver
- Critical thinker
- Organized
- Empathetic
- Willing to learn

Languages

Romanian - native language

English - C1 level (self-assessed)

Interests

- D&D
- Psychology
- Philosophy
- Soccer, Table Tennis, Bowling
- Hiking
- Gaming
- Movies & Anime, Japanese language
- Gaming - Open Worlds, Card games
- Rock climbing
- Brazilian Jiu-Jitsu
- Volunteering

Other

I was born on the 15th of September, 1999. I currently live in Bucharest, Romania.

I have had a driver's license since 2018, class B.

Proficient with standard Microsoft Office Tools.
